**C**haracteristics

## DESIGN

Aesthetic and refined design. Maintaining an [aesthetic line suitable for Casinos](#) and high-level game rooms that stand out for their elegance and avant-garde decoration.

Reference team for [secure cash management](#).

With features that allow this product to be the [manager of all the cash](#) that circulates in the establishments and gaming halls.

## EXTERIOR

Stylish equipment with an aesthetic aligned with [the most avant-garde trends in the sector](#).

[27" screen](#) arranged vertically for a better view of the different operations that you want to perform.

A [highly elegant methacrylate coating](#) that raises its category to the highest level.

[100% Customizable](#) – Both the screen and its lower part can be customized with the colors and logos you want. And in its configuration menu, the client will be able to customize the exterior color that borders the screen.

## INTERIOR

### Printers

Fully configurable at the customer's request to incorporate receipt printers and [printers](#) for TITO systems.

### Integrations

Planned for its integration with the [different possibilities of means of payment](#) that are being incorporated.

## Cash Movement Dispenser

Equipment with a [high capacity to manage bills](#), to adapt to the trend whereby gaming machines have less and less cash.

High-capacity ticket dispenser with up to [6,000 units of up to 4 different denominations](#) – Due to the fact that more and more prize machines will reduce the movement of cash inside them, the payment of prizes will be transferred to the ticket machines change.

## Recycler

The SMI-P03 machine also has a [high-capacity bill recycler prepared for bills from any country as required.](#)

3 cassettes for the distribution of validated bills, and 1 removable and lockable drop cassette.

A maximum of [3 denominations can be directed to the recycling cassette](#), while the rest of the denominations will be directed to the delivery cassette.

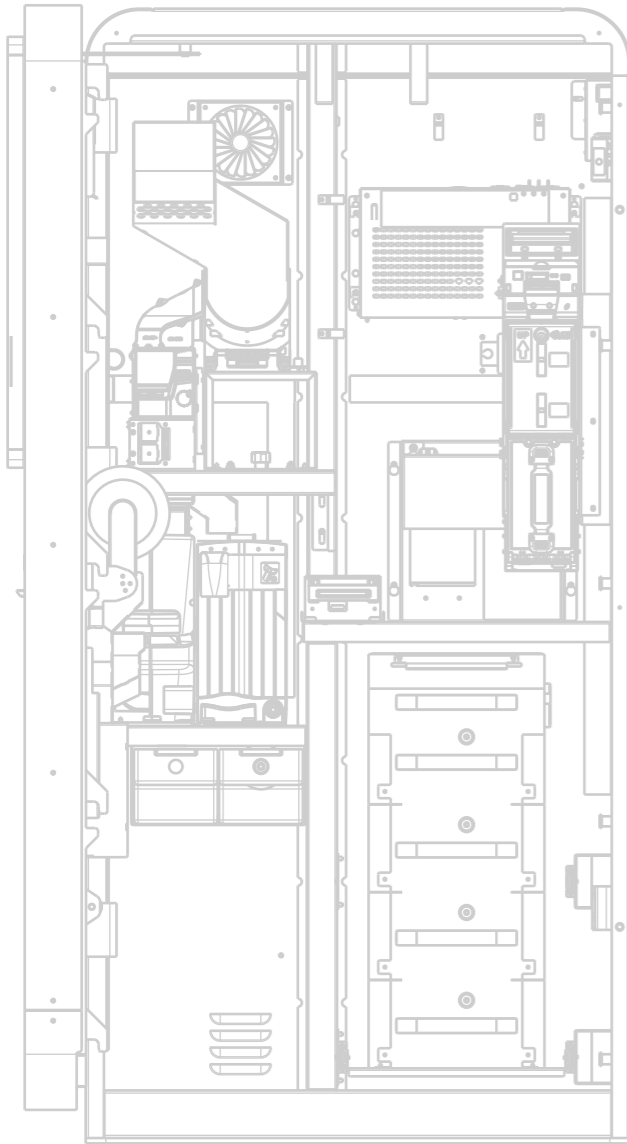

[Dispense Bills](#) – Bills housed in the recycling cassette can be bundled and dispensed as change to a customer, up to twenty bills at a time.

[Bill Unloading](#) – Bills in the recycling cassette can be moved to the delivery cassette.

## Other peripherals

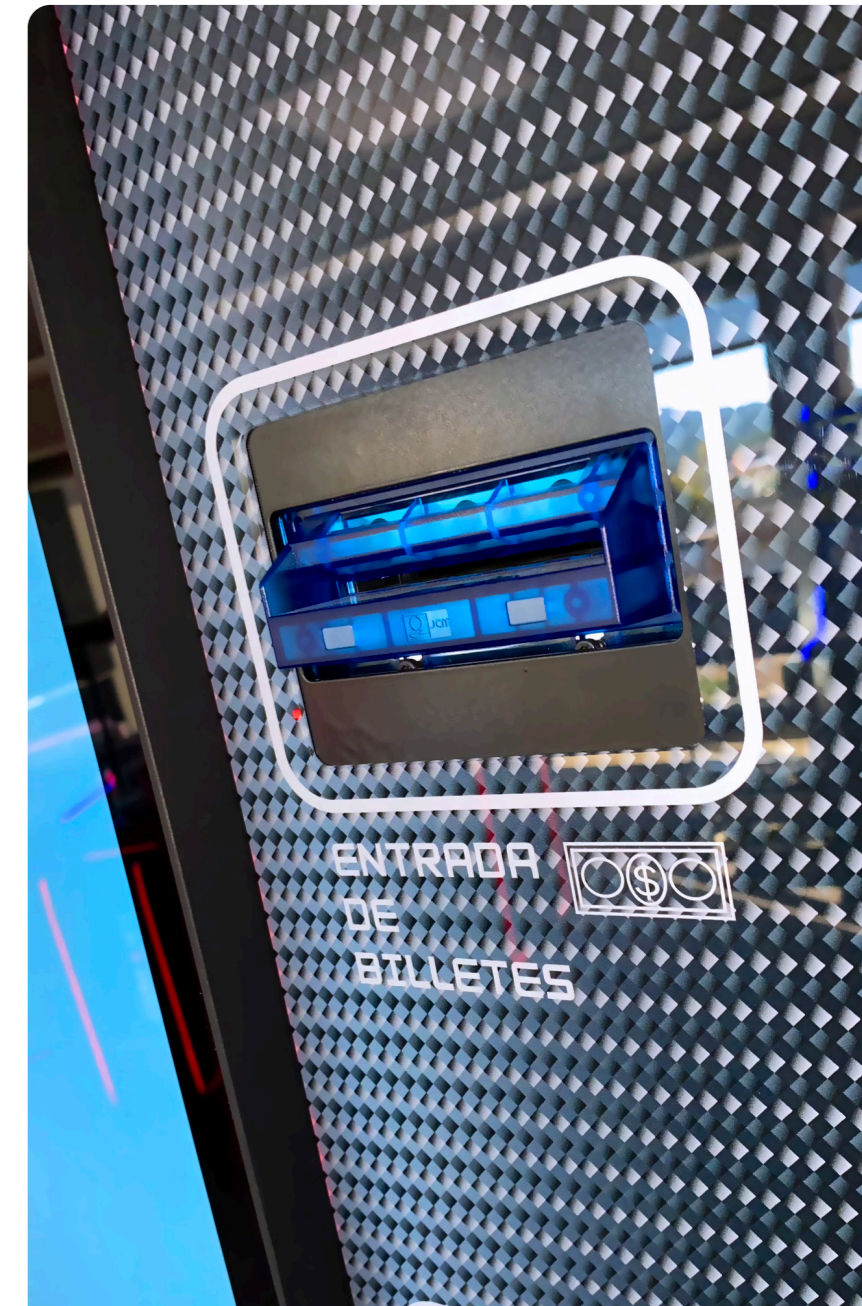

It also has a coin system for dispensing coins.
