SLOTME EXPERIENCE

Slotme is a [web environment application](#), intended for both the operator and the player where the latter, by prior registration on the [slotme.es](#) site, [can access multiple customization options as well as different roulette game modes](#).

It does not apply to online roulette games, but is aimed at [face-to-face game roulette within a room or Casino](#), where in turn the operator can offer the player a different gaming experience, within the classic game of roulette.

REGISTER

Entering the [slotme.es](#) site from a computer or mobile, the [player must generate an initial registration to enter the application](#), where he will only be asked for an email, username and password.

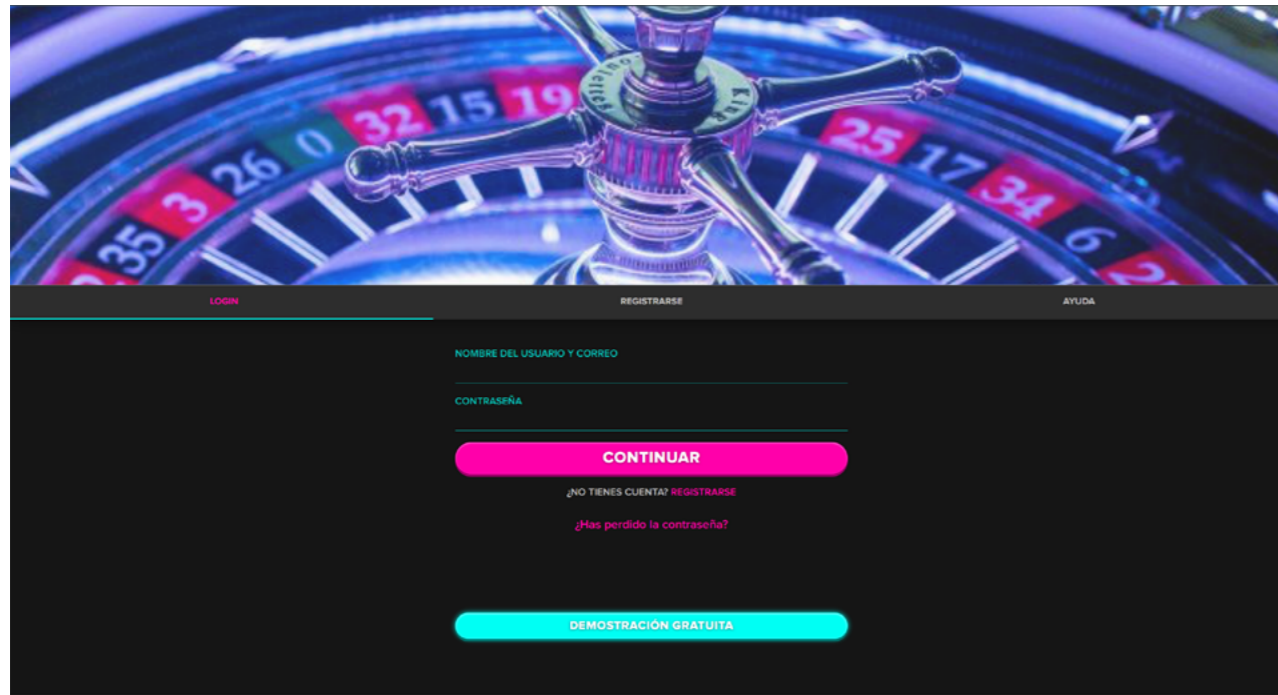

Once the registration is complete, the system will send an [email to the user to validate their registration](#).

On the same home page and prior to registration, the user will have a “[help](#)” tab available to the right of the registration, [with the steps to register](#) if required.

You will also have the benefit of [obtaining a number of Slots for free for registering on the site](#).

This last option, both the benefit and the number of free Slots, may be available at the option and choice of the operator.

Registration screen

Help screen

Help screen titled "PROCESO" (Process) showing a 3-step registration process. The steps are:

- 1 ¡Regístrese!**
Solo necesita crear un usuario con un correo electrónico. Pulse el siguiente botón para empezar.
[Registro](#)
- 2 Validación**
Confirme su registro a través del enlace recibido en su correo electrónico. Ahora ya forma parte del mundo Slotme. Solo tiene que iniciar sesión con su usuario y contraseña en un terminal de juego, en su móvil o un ordenador personal y empezar a vivir las ventajas de una nueva forma de jugar a la ruleta.
- 3 ¡Adquiera Slots!**
Le damos la bienvenida con algunos Slots, pero seguro que quiere más. Juegue en torneos o visite nuestra tienda para su adquisición.

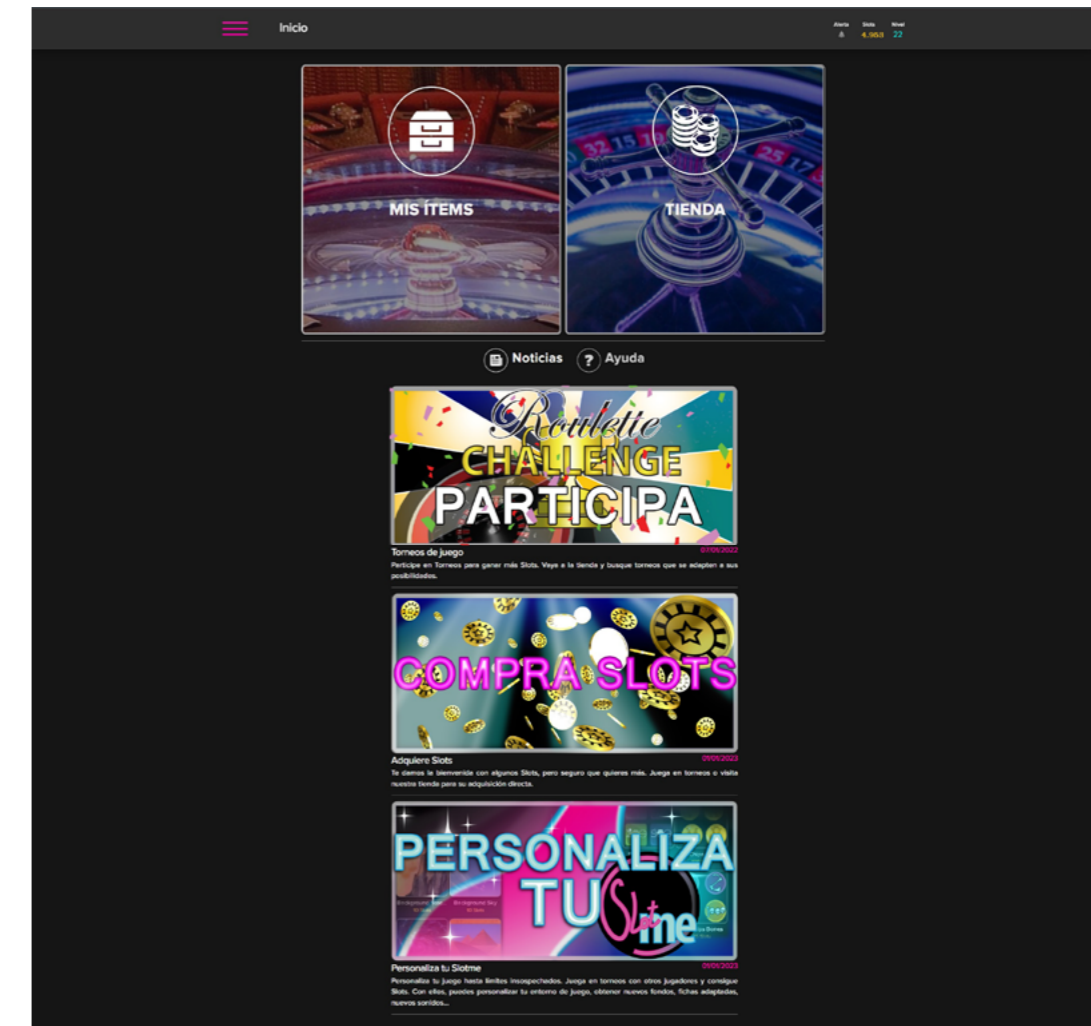

Once the registration and its corresponding validation have been generated, the user will be able to re-enter the slotme.es site to proceed to login, enter the application and start playing.

Once entered, the user will have a control panel where they can view their “ITEMS”, enter the “STORE”, and the different Tournaments that will be available according to availability.

In a few words, Slotme consists of a system for acquiring items through a store. These items can be applied later to your game, offering all the possibilities of customization and interaction with the game.

Slotme control panel

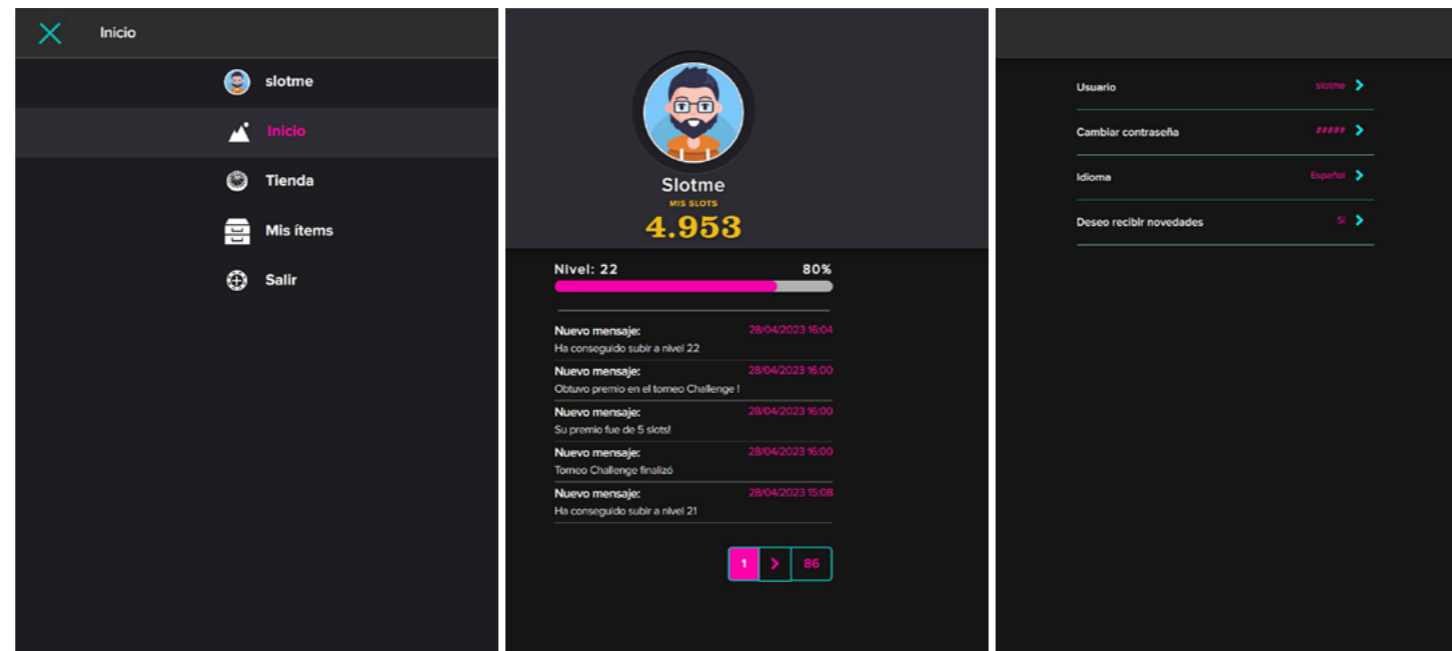

At all times the player will have available in his control panel, [the number of Slots purchased, available, and a help section](#). You will also have the different [news and alerts](#) that the application will notify you about all the updates, [new designs, and tournaments that you can participate in](#).

Displaying the menu bar that is in the upper left part, you will have the same options, including the [user configuration](#) where you can view in more detail, the purchases

made with their corresponding [purchase dates, the tournaments in which you have participated](#), and a settings option where you can make [changes such as username, password, language](#), and if you want to receive notifications on both your computer and mobile.

Also in this same menu, you will have the option to [exit your respective session, how to unsubscribe from Slotme at any time you want](#).

SLOTME STORE

Once entered in this section, the user will have a wide variety of items with the option to purchase according to their preferences.

Slotme has a store mainly divided into 3 sections.

- Purchase of SLOTS.
- Participation in Tournaments.
- Roulette customization.

SLOT PURCHASE

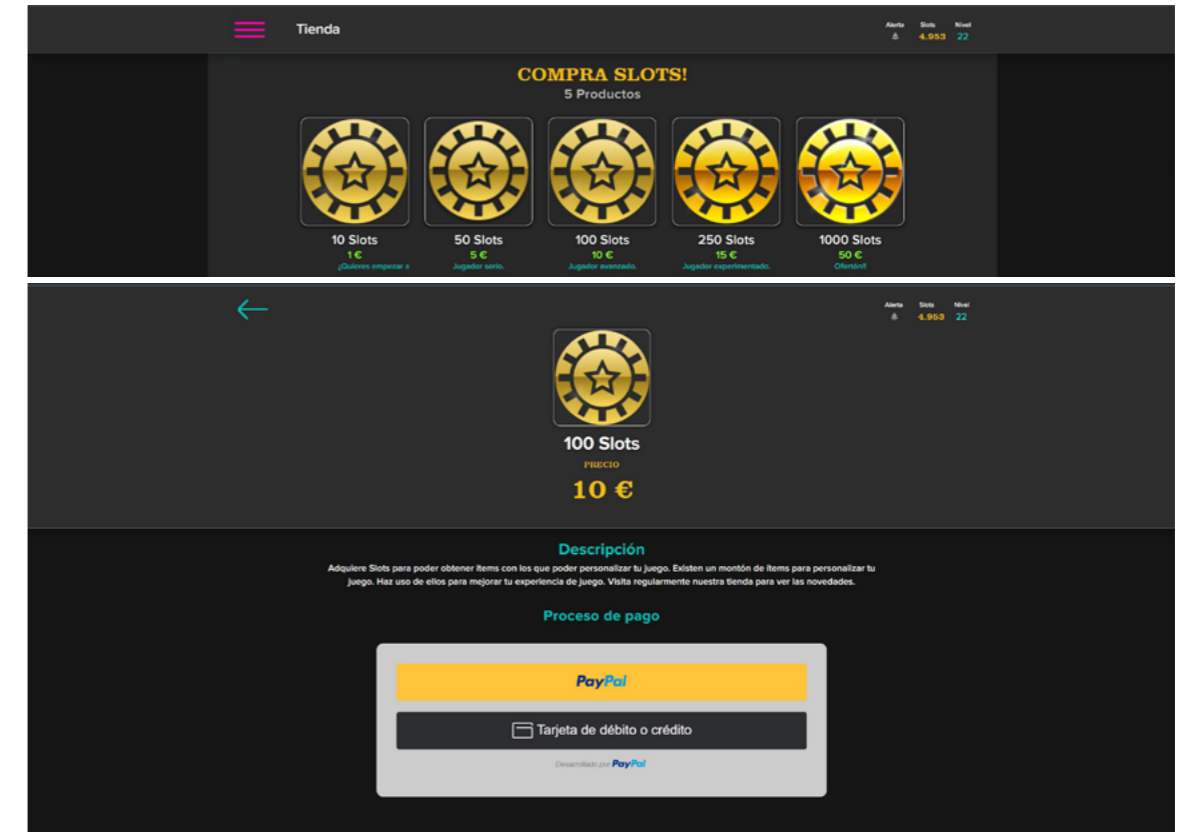

In order to access [the purchase of various features and customization](#) offered by Slotme, the user must do so [by purchasing Slots](#).

The Slots are the [currency/points](#) that the user must acquire by purchasing with a [credit/debit card](#) or another payment platform*, and then, depending on the number of Slots they have or have purchased, [to be able to acquire the “items”](#) offered the platform.

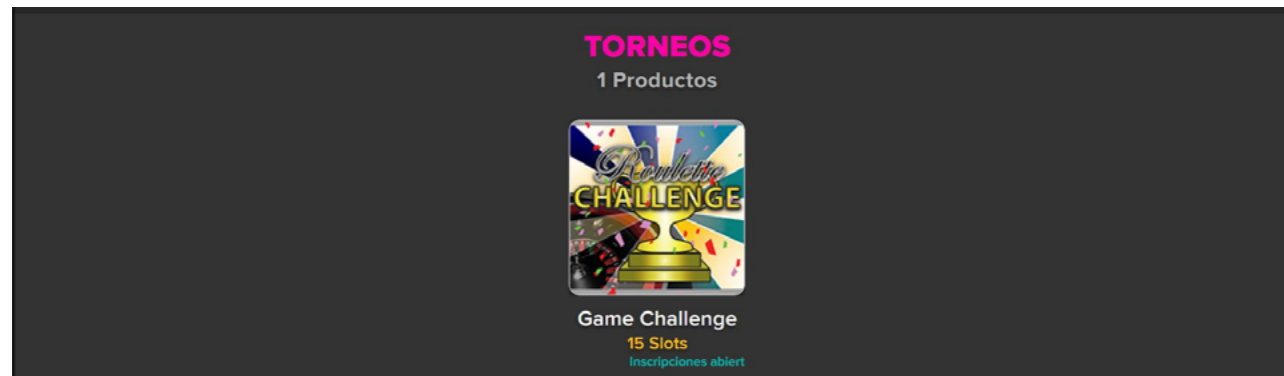

**The payment platform offered in Slotme can be selected by the operator according to Country or Region.*

Each item offered has a number of Slots that, when selected, will deduct from its number of [previously purchased and acquired Slots](#).

Within this section, [the user will have different purchase amounts](#) available according to their preferences and the money they wish to allocate. [The more Slots you want to buy, the cheaper the price of the Slots will be](#), and you will even have different discount offers for the purchase of Slots in large quantities.

PARTICIPATION IN TOURNAMENTS

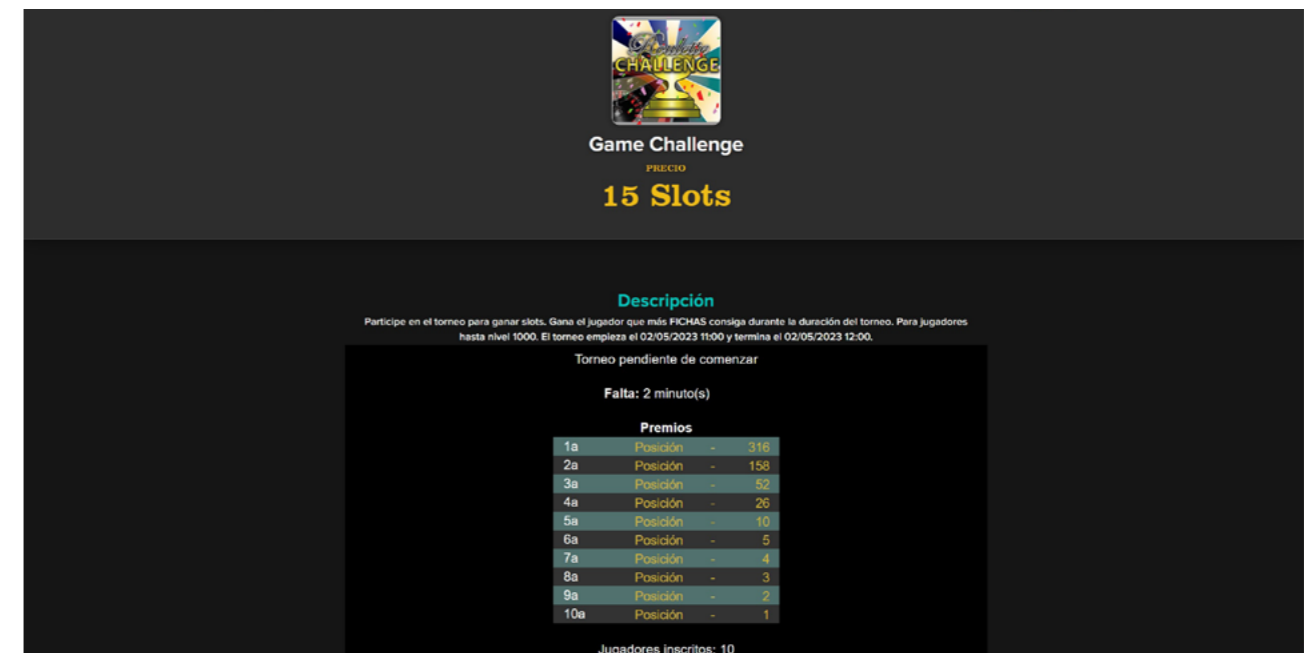

Slotme has different [Tournaments](#) that mainly consist of generating new experiences [between players](#) in the same roulette wheel, in [different roulette wheels within the same establishment](#), or in the event that the operator has several rooms, they can interact with each other regardless of the establishment while they are connected to Slotme.

Tournaments [can be fully configurable at the operator's request](#), although Slotme already [has different predefined tournaments](#) aimed at competing between players who are in the place, or [attracting players on certain days and times](#) that are of interest to the operator.

Slotme has a [notification and alerts option](#), where the player will receive the different notifications on his mobile if he has this option selected within his configuration preferences.

[Tournaments can be of short or long duration](#) from minutes, hours, and even days according to the operator's preferences to attract players.

Tournaments are [mainly intended for interaction between players](#), offering different types of [prizes that can consist of Slots, points, or chips](#), depending on the operator's preferences.

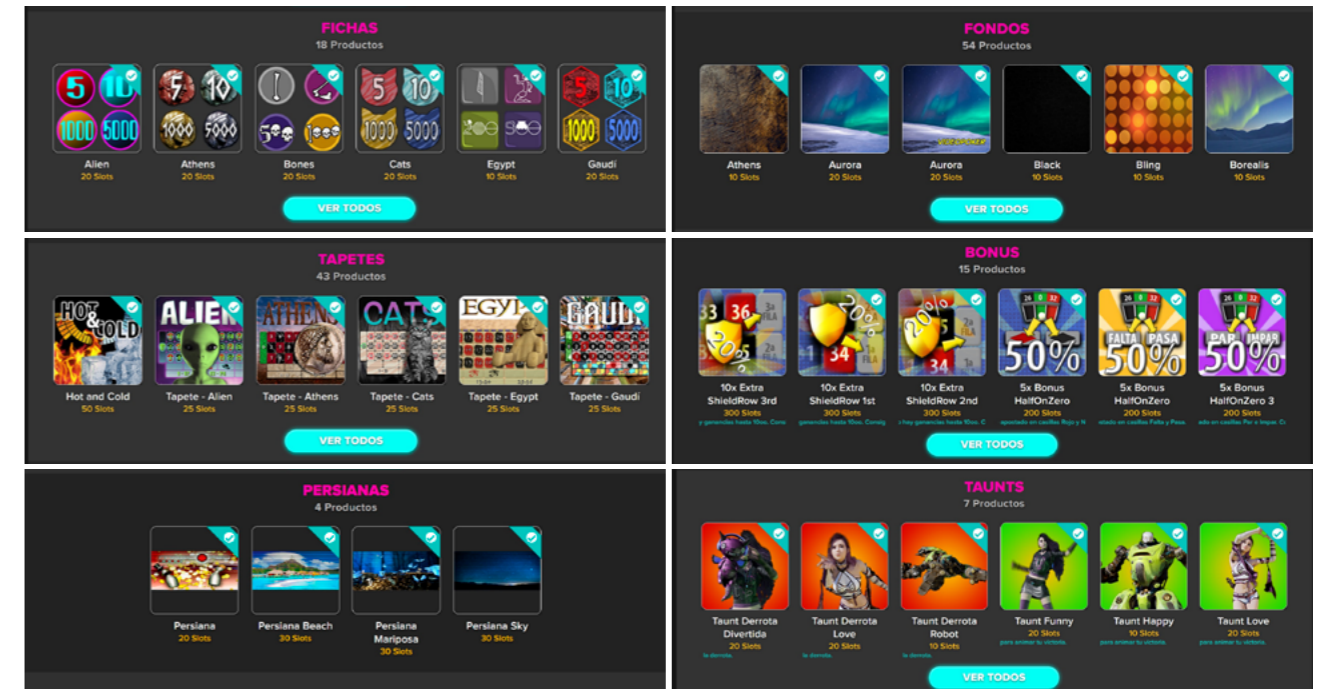

ROULETTE CUSTOMIZATION

Slotme allows exclusive and complete roulette customization per user. In the same Store, the user will have at his disposal all the different areas of the roulette that he can and wants to customize, with their exclusive designs and developed by SMI2000.

In turn, in this customization section, Slotme offers the player tools called “BONUS”, which consists of different tools such as shields, or game strategies where when playing a Tournament, the player can make use of these being beneficial both to win the Tournament, or to reduce your loss of points depending on the strategy used.

Personalization tools:

- Money
- Records
- Slots
- Bonuses
- Mats
- Blinds
- Taunts

Slotme offers a wide library of exclusive designs that are constantly being updated.

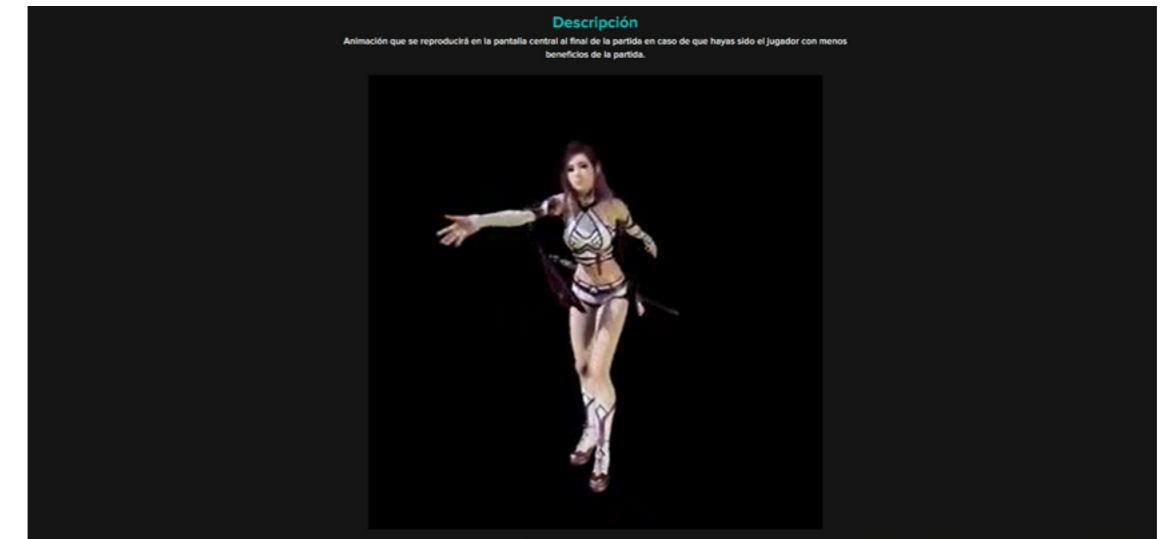

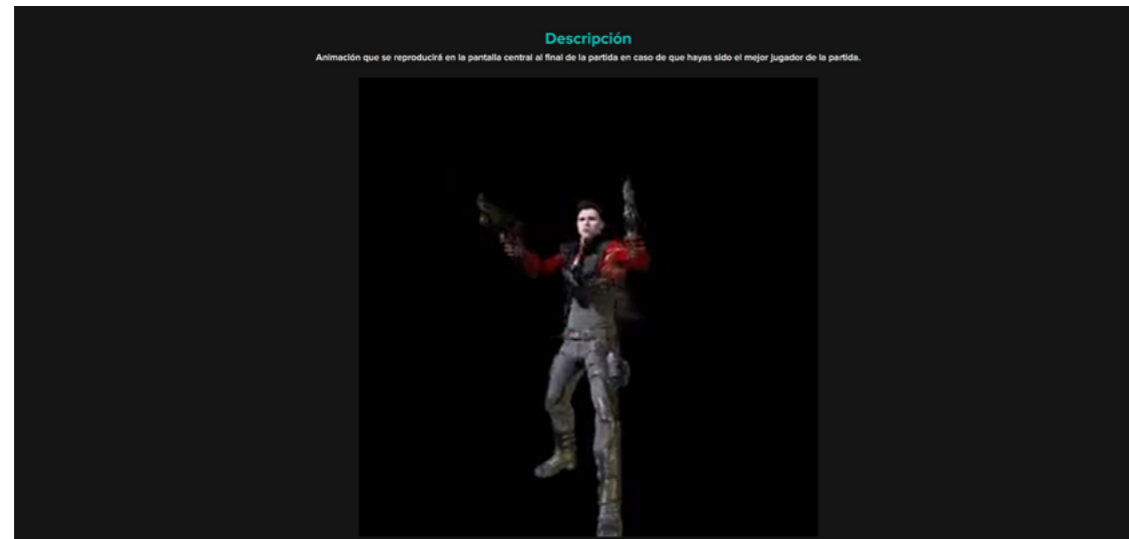

Among the different customizations, the player has the option to purchase “[TAUNTS](#)”.

[Taunts](#) are avatars that the player can purchase and use in tournaments.

These are found by default where depending on the type of Taunt that the player has purchased among their items, it will appear on their screen, [motivating the player in case](#)

[they have lost, or motivating even more in case they have won the game](#). As well, it will also appear on the screen of the different opponents in the form of a joke or greeting.

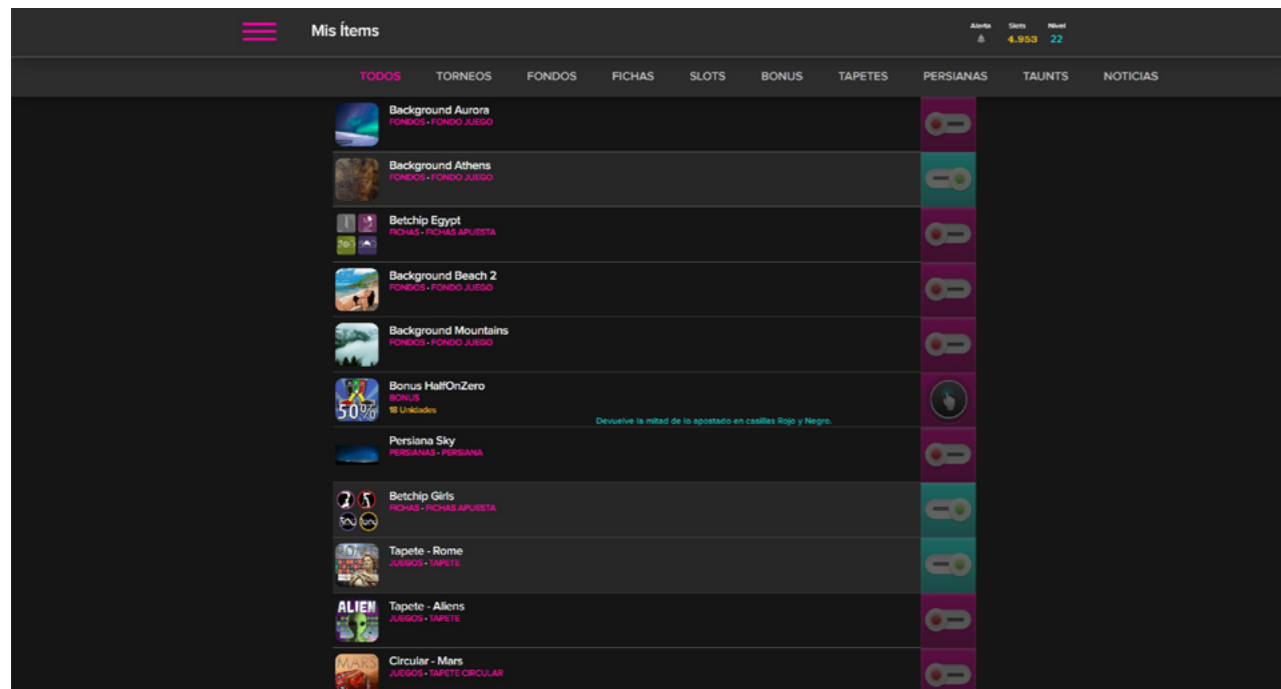

These Taunts are [animated characters and appear with movement on the same screens of the players](#).

IMPLEMENTATION OF CUSTOMIZATIONS

To implement each of the different customizations offered by Slotme, the user only has to [enter the corresponding menu](#), in the “My Items” section.

Once inside you will have at your disposal [all the customizations purchased](#), where on your right you will have the activation of each one of them with just one click.

CUSTOMIZATION IN ROULETTE

All **SMI2000 Evolution** model roulettes have the Slotme implementation option.

The application is installed in the same roulette satellite, and on the screen in standard mode where roulette is found by default, only the [Slotme logo](#) will appear in the lower left part.

In the case of a player who is not yet registered, they can do so from [the same Slotme platform](#) installed in the roulette wheel and start playing. You only have to keep in mind about the validation of your [email that you can validate it at the same time from your mobile](#).

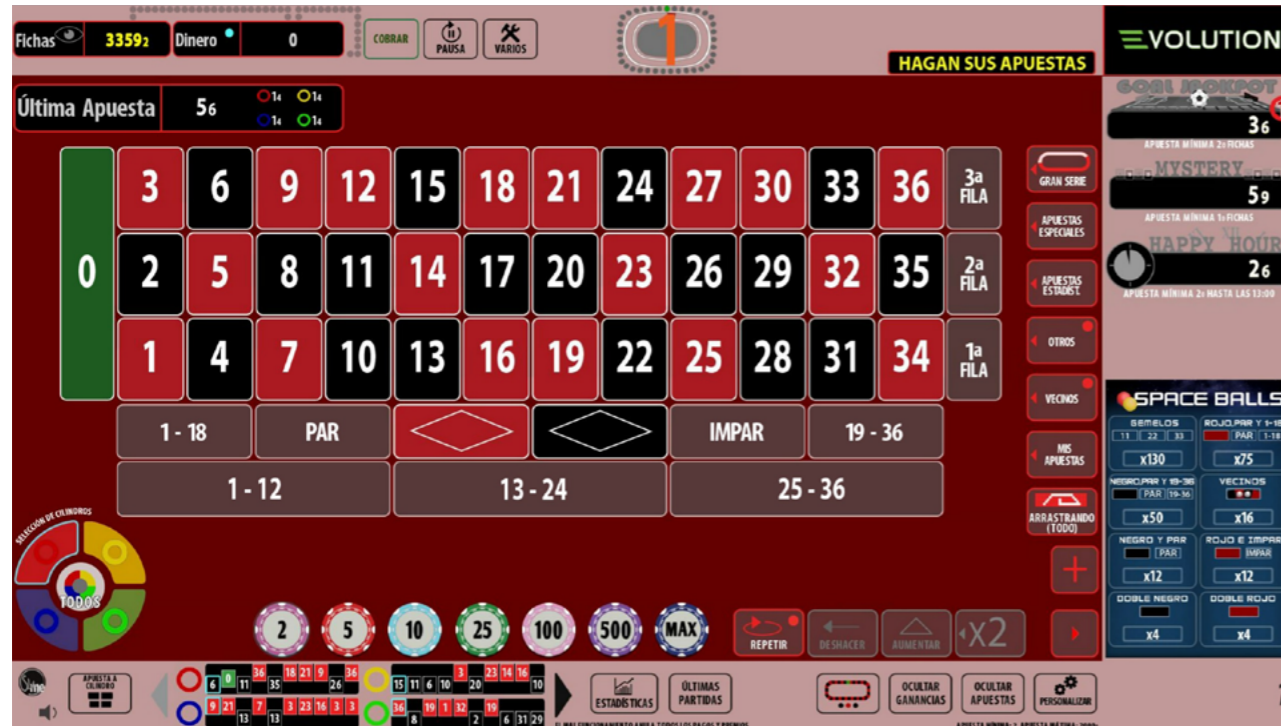

In the case of already registered players, you only have to [enter with your username and password, and you will immediately](#) access your user profile.

Once entered for any of the cases, the player can begin to be part of the [Slotme experience](#).

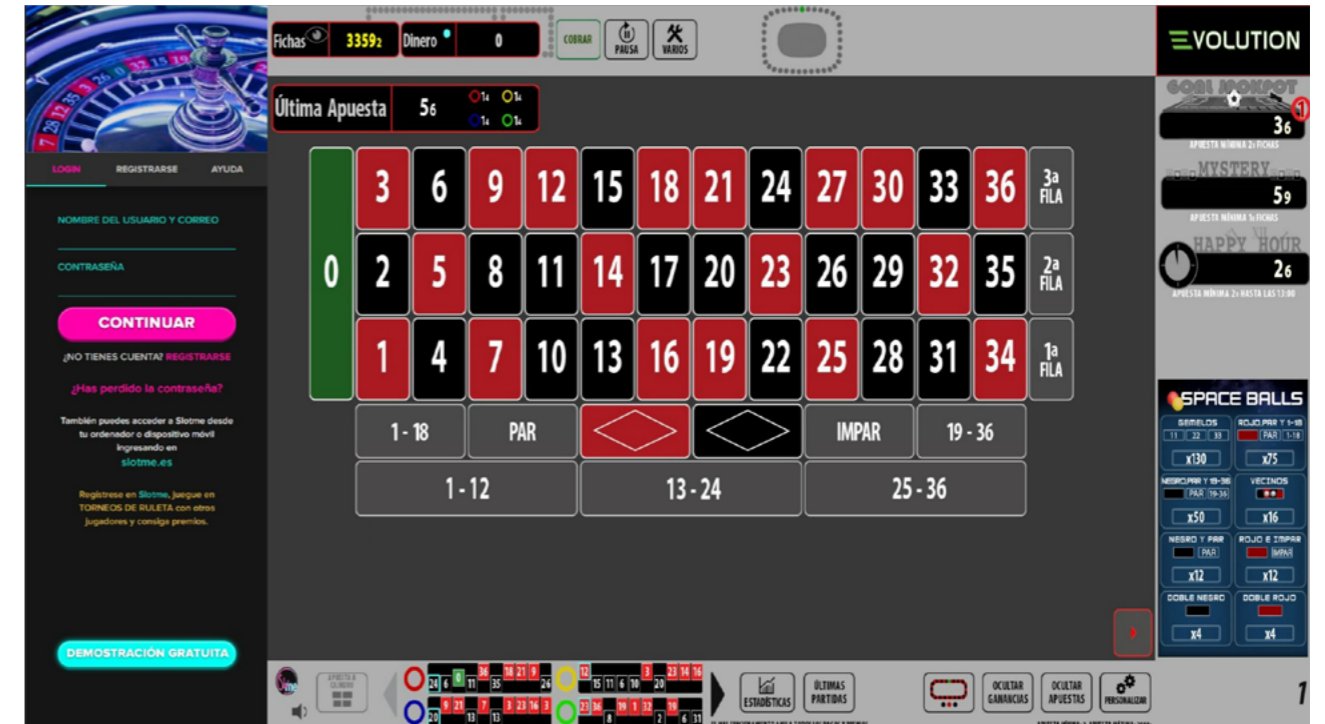

CUSTOMIZATION IN ROULETTE

Making use of the purchase of Slots, customizing your own roulette, or participating in the different tournaments offered by the platform.

At any time, and in any part of the game, the player will be able to minimize and maximize the Slotme screen.

Just by clicking on the Slotme logo on the touch screen, the platform will appear or disappear depending on the occasion and the player's preference.

CUSTOMIZATION IN ROULETTE

When maximized on the screen, a column-shaped window is displayed in the left area of the screen, reducing the game board by the same amount.

When minimized it disappears, returning the size of the board to its original size.

Screen with minimized Slotme platform, and new activation of custom chips.

Screen with selection and activation of personalized board.

Slotme also offers both the player and the operator, different player levels as you play and increase your amount of Slots and winning tournaments.

CUSTOMIZATION IN ROULETTE

Being very useful when it comes to generating tournaments at different player levels, with prizes, and even designs and customization according to their level of play. It will motivate players to enter, compete, and be part of the Slotme experience.

Slotme offers a unique gaming experience, with customization of your own board, tournaments and game strategies. All in one place.

A platform oriented to the new generations, but with the ease and utility that involves both new players and the most conservative ones.

***Evolution** roulette is still an innovative product, maintaining the essence of the classic game of roulette. Where by merging with Slotme, it opens a world to a new experience and way of playing.*
